

Want to change
the world?
Get on board!

ecolytiq

We at ecolytiq believe technology will be the game changer in facing the most daunting challenge of our times – CO₂ reduction. We want to grow a team of people who want to make a difference. We seek personalities with values. Individuals with the passion to create, to change, and to dare. “Doers” with a sense of urgency, who strive for team play and outstanding results.

We are looking for your support to face this challenge as:

Intern Enterprise Architecture m/w in Berlin

Your tasks:

Let something new emerge:

Assist with developing IT strategies and design enterprise architectures that align IT capabilities to strategic business goals and priorities.

Take responsibility:

Engage with stakeholders to determine how IT enterprise platforms enable organizational business strategies and functions.

Use creativity and freedom:

Analyze enterprise business, systems and applications, and technology environments and suggest and document solutions.

Shape the future:

Be part of the perfect enterprise architecture for our products.

Your profile:

Working style:

Structured, independent and analytical with ability to apply core expertise toward business and IT setup.

Personality:

Strong communication skills, team player, curious and eager to learn quickly.

Experiences and know-how:

1+ years of experience with system analysis, requirements engineering, or systems integration, including internships, externships, or school projects.

Languages:

Fluent in English, good in German.

Education:

BA or BS degree in a business, technology or related discipline.

Technologies:

Cloud technology stacks incl. Kubernetes, Architecture documentation and communication patterns.

Want to change
the world?
Get on board!

ecolytiq

Your benefits:

Work for a purpose:

Help to support CO2 reduction and sustainability every day.

Work in a team of „Doers“:

Teammates with the passion to create, to change and to dare. Loads of exciting things to learn.

Flexible and mobile working:

We offer flexible working (time) models as well as home office opportunities.

Modern technologies, tools and methods:

Docker, Kubernetes, MySQL, Jira, Scrum, Kanban, Continuous Integration.

Space for your own creativity:

If you see gaps - feel free to create the non existing.

No legacy code:

We are building a brand new state-of-the-art piece of software (greenfield project).

Keep the good going:

Two days volunteer leave every year.

If you feel inspired and want to become a part of our growing agile culture, then don't hesitate! Send us your complete application documents via email at
